

## Boardroom Timber Table

VOYAGER

**“Boardroom dining tables are made locally and can be tailored in size and material to suit your project”**

The Boardroom Dining Table is a design by Voyager in response to customer requests for 'tables which provide maximum seating for space'. This locally made range features premium materials designed to withstand the rigours of heavy use. One of the key features of the table is the 4.5 cm thick floating slab-like top which seems to be suspended mid-air. The recessed stainless steel frame, in either a cross or girder base, provide no obstruction to the seating position around the entire perimeter of the table. This enables maximum seating, without the need for extension leaves.

The Boardroom is not just for corporate use...this table is designed with residential interiors in mind. With a choice of beautiful Recycled Australian hardwood and select new timbers this table will take pride of place at the centre of any family or business gathering.

**Warranty:** 5 year warranty

**Lead time:** Normally takes 6-8 weeks for production. More during peak and holiday periods

Prices, availability, lead times, dimensions and product information listed are subject to change without notice. This document was created on 29/Sep/2017 at 11:04 AM.
