Synthetic fabrics / Materiales sintéticos

Synthetic fabrics should be cleaned periodically in order to maintain their appearance and prevent build-up of dirt and contaminants.
Any stain, spills or soiling should be cleaned up promptly to prevent the possibility of permanent staining.
Use soft soapy solutions or special cleaning products for washable synthetic fabrics to remove stains on the surface of the material. Remove only with a damp white cloth.
Lacquers, strong cleaners or acetone cause immediate damage and contribute to the deterioration of the material. The use of such cleaners is at owner's risk.
Certain clothing and accessory dyes (such as those used on denim jeans) may migrate to lighter colours. This phenomenon is increased by humidity and temperature and is irreversible. Calligaris S.p.A. will not assume responsibility for dye transfer caused by external contaminants and possible permanent staining caused by this phenomenon.

Los materiales sintéticos se deben limpiar periódicamente para mantener su apariencia y evitar la acumulación de contaminantes y mugre.
Toda mancha, derramamiento o suciedad se debe limpiar con rapidez para evitar un manchado permanente.
Use soluciones jabonosas suaves o productos de limpieza especiales para eliminar las manchas de la superficie del material. Limpie solamente con trapos blancos humedecidos.
Las lacas, los limpiadores fuertes, los detergentes y la acetona causan daño inmediato y contribuyen al deterioro del material. El uso de estos limpiadores es bajo su propia responsabilidad. Ciertas prendas de vestir y tintes de accesorios (como los utilizados en los pantalones vaqueros) pueden migrar a superficies más claras. Este fenómeno se ve incrementado por los efectos de la humedad y la temperatura; es irreversible. Calligaris S.p.A. no asumirá ninguna responsabilidad ante reclamos de transferencia de color originados por contaminantes externos ni ante reclamos de manchas permanentes causadas por este fenómeno.

Leather - Regenerated Leather - Soft Leather / Cuero - Cuero Regenerado - Piel

Soft leather

Calligaris uses leather which comes from the finest part of the European ox skin (the core) cut in different thicknesses depending on the requests and then tanned. The external finish is obtained by using water based colours.

Piel

la piel utilizada por Calligaris se obtiene de la parte mas noble de las pieles (la flor) de bovino europeo cortado en espesor variable según la exigencia y sometido a curtido. El acabado externo es obtenido con pigmentación a base de agua.

Leather

Leather is obtained by using a thicker layer of European ox skin. It is first tanned and then given a finishing coat.

Cuero

El cuero se obtiene de las pieles de bovino europeo cortado en espesores mayores respecto a la piel y sometido primero al curtido y sucesivamente a un acabado cubriente.

Regenerated leather

Regenerated leather is the result of the mixture of leather off-cuts (min 60%) and other natural materials. Regenerated leather is finished with the same procedure used for leather.

Cuero regenerado

El regenerado de cuero es un aglomerado obtenido de mezcla de virutas de las pieles (mínimo 60%) y otros materiales naturales y acabado con la misma modalidad utilizada para el cuero.
