

## Abrey Extension Dining Table By Calligaris

**VOYAGER**

**“Elegance in simplicity of design with extension functionality.”**

The Abrey dining table is set on a solid ash timber base with tapered legs. The elegance of this table lies in a sheer simplicity of design that brings to the fore the rare beauty of the tops which differ in terms of size, shape and materials. It provides flexible dining options with two side extension leaves each opening separately. A selection of timber and ceramic finishes ensure you will customise the Abrey to suit your dining space.

**Colours:** Please refer to the product schematics for colour options and finishes.
