“Reaching the balance between design and function, to stay within the limits of the aesthetic balance”

Designed by: Stefano Bigi

The structure lays on an lacquered aluminium subframe that features slender legs, giving it an elegant lightness; the cuoio, leather or fabric frames are then of great impact, both on the side and back of the sofa, with their lightly rounded shapes housing the cushions in leather or fabric, themselves extremely soft, enveloping. The result is a seating system devoted to comfort and emotional design.
