

## Cameo - Oak By Calligaris

**VOYAGER**

**“A bold and modern extension table with a beautiful oval silhouette.”**

Designed by: Gino Carollo

The Cameo extension dining table features a defined oval silhouette which imbues it with a powerful personality and not only provides stability but allows the space beneath the top to be used to the utmost. Made from coated metal, the central column supports the various types of tops; a metal/wood combination is invariably refined whereas the mixture of metal and ceramic with a marble effect creates a playful contrast between cold and warm materials and is edgily modern. The extension leaves slide out easily and provide extra dining space when needed.

**Finishes:** Solid Oak Timber in; Wild Carbon, Wild Natural & Wild Grey

**Lead time:** 1-2 weeks if in stock. New orders approximately 16-20 weeks from Italy.
