

## Ginza Sofa By Calligaris

VOYAGER

**“Soft and enveloping lines!”**

Ginza is a sofa system with sinuous and sensual shapes.

Inspired by organic shapes reminiscent of 1970s design, it transforms any space into a warm and familiar landscape, spreading a pleasant sense of home comfort.

Soft and enveloping lines recur in all the elements of the collection, which includes various modules that allow the creation of linear compositions, angular or unusual shapes, always characterized by the play of shapes and a cozy looking depth. The covers are completely removable for easy maintenance.
