**VOYAGER**

**“A collection with a strongly contemporary signature, that has in elegance and substance its guiding lights.”**

Range, a defined area within which one can move, in order to obey the rules. This is the inspiration of the coffee tables collection designed by Marconato & Zappa for Amura, a collections that does not aim to stretch the allowed limit, so that its design is the epitome of balance, the right balance between design and function. Range is a coffee table collection that combines materials, at the forefront of the Amura collection, metal and marble or wood. Available in four sizes (with different height and diameter of the top), the Range tables find different application and can satisfy different needs: in the domestic environment they can be applied in different functions (from the living room, to the bedroom or bathroom), in the contract sector their use is eminently transversal. A collection with a strongly contemporary signature, that has in elegance and substance its guiding lights.
