Wazza, a system of sofas and ottomans, fills the space with a left-field elegance. Informal even in its name, it hints at the "what's up?" of chitty-chats shared between friends in a living room. Conceived for those who love design and look for the ultimate comfort, WAZAA furnishes the living thanks to its strong personality, and to the possibility of modulating its various modules according to spaces and aesthetic demands. The system is completed with the generous ottoman, a quintessential example of the roundness that characterises the whole collection. WAZAA, in fact, banishes all edges and rigidities, in a blaze of sinewy lines with a fifties taste. Seats and cushions are available in leather or in precious fabrics of important textures.

Lead time: Approximately 20-24 weeks from Italy.
